

Big rig big hit with Friend 5th graders
by Lee De Bevoise

Thanks to Bob Rohrig, Miss Gale Miller's 5th grade class had a thrill last week. Cotton Thompson brought Rohrig's tractor trailer "big rig" for a visit. Each student had the opportunity to climb into the cab and dream what it would like to drive one.

Thompson, who has 52 years of experience with big rigs, patiently answered every question from the 5th graders. The class even had a couple of math questions involving the total pounds the trailer held, as well as calculating the gross weight of the tractor and a fully loaded trailer.

Fifth graders and a big rig - can it get any better? Not according to Miss Miller's 5th grade class.
